Short Introduction.

Goal in Life.

Qualities I would like students to acquire for the future.

Hello, I'm **V** from Indonesia. I am the head of teachers in **Dr.Tech**.
I am best known as 'game master' among the kids!

My everyday goal is to never stop learning.
Seeing how each student welcome new challenges and never
stop growing truly motivate me to do so!

I want students to understand that the most important
thing is taking the first step, and practice makes better.
Each small step do count!

挑戦をして欲しいと思っています。

試行錯誤しながらも、一つ一つ、小さなステップを踏んでいくことは、とても大切なことです。

My life long goal is to be happy and keep on smiling!

Hi,I am **Chinatsu**.

I have great interest in Education.

My life goal is to try anything I want to.

I believe that having positive attitude toward new things will create good opportunities.

I would like students to feel that thinking is fun and interesting.
When they can think and produce ideas freely, they will acquire desire to learn by themselves.

Hello, I am Yuki Igawa, the founder of Dr.Tech.

This is rapidly changing era.

What are the skills that children will need in the future and the learning that will help them to live?

We think that the answer is "English ability," "IT skills," and "Finance."

Providing an environment where children can learn in a fun, stress-free and natural way is the education that Dr. Tech finds as most important.

はじめまして。Dr.Techの井川です。

急速に変化する今の時代。

今を生きる子どもたちに将来求められるスキル、生きていく力となる学びとは何か。

その答えが「英語力」「ITスキル」「金融」でした。

子どもたちが楽しく、ストレスフリーで自然体で学べる環境を提供すること

それが、Dr.Techの一番大切にしている教育です。
